

3 Courses

Parallel Programming in Java

Concurrent Programming in Java

Distributed Programming in Java

06/23/2020

**Jingci Li**

has successfully completed the online, non-credit Specialization

# Parallel, Concurrent, and Distributed Programming in Java

This specialization is intended for anyone with basic knowledge of sequential programming in Java, who is motivated to learn how to program multicore processors. Through a sequence of three courses, you will learn foundational topics in Parallelism, Concurrency, and Distribution, which will prepare you for multithreaded and distributed programming for a wide range of computer platforms from mobile devices to cloud computing servers.
